

Education Station

To access the training videos on youtube follow the easy steps below for the best search results:

- Go to www.youtube.com
- In the search box type in the subject you wish to learn.

(ex.) If you are searching for videos on “Excel”

Try searching (ms excel, beginning excel, learn excel, intermediate excel, advanced excel) or any other words/phrases pertaining to the subject. Try putting the word (learn), (lessons), (beginning), (basics), (training) at the beginning of or end of your search query for better results.

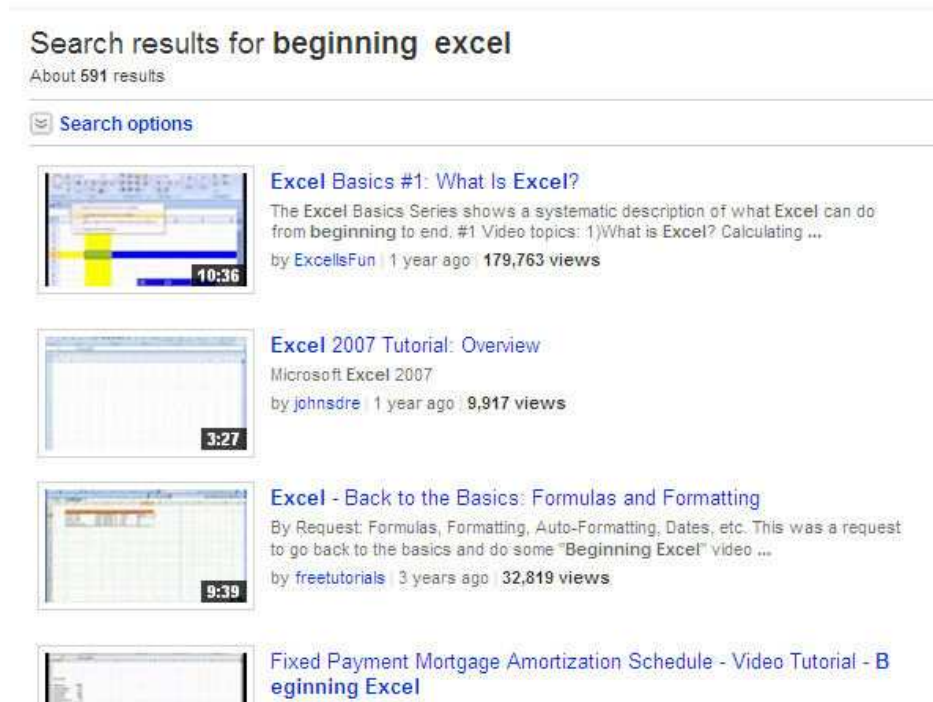

How you type in the subject can bring up different results. So try different variations for your search.

Also check out all the videos that appear in the search drop down box.

(ex.)

- Your youtube search results will look something like the image below:

The image shows a screenshot of a YouTube search results page for the query "beginning excel". The search results are displayed in a list format. Fixed Payment Mortgage Amortization Schedule - Video Tutorial - Beginning Excel

Look through the pages of videos looking for the videos you would like to learn. Once you find a video, click that video to watch.

After watching your video, be sure to check out the related videos on the right side of the screen to continue learning all related topics in that subject. See image below:

Check out the other videos by this author by clicking their link in the upper left corner of screen.

Check out these related videos on the right side of the screen.

Optional:

Youtube videos can be downloaded to your computer for future watching. This comes in handy if the video owner removes the video from youtube at some point in time. There are several programs out there for downloading youtube videos. One of the most popular is the free youtube downloader from www.cnet.com. Do a search for youtube downloader from the cnet.com site.

Once the videos have been downloaded to your computer you can burn them to DVD or an alternative is to purchase an external HD to store your videos on, saving your computers HD space.

Below is a small list of training videos I have found on youtube. This list is not all inclusive to all the training videos available on youtube. If you find another site that has free training videos, please let us know so that we can share the information with others.

Use these resources to help your children with their schoolwork also.
